SUMMARY

Methodical web developer who's dedicated to learning while solving problems. Motivated to expand my knowledge and create. Known for being open minded, patient, and adaptable. Predilection for elegant and creative design.

EXPERIENCE

Software Engineering Intern, Dec 2015 - Present
QCentrix, San Diego

- Wrote tests from scratch using Factory Girl, RSpec, and Capybara for a Rails Application
- Added a master ID and an ID confirmation field for certain users then linked this ID to internal reports

Full Stack Web Development Student, 2015
Notch8 LEARN, San Diego

- Developed a web application called Fun Finder where users can create a profile, follow other users, find and attend events in San Diego, and save events to their Google Calendars
- Created a Tic-Tac-Toe game using HTML, CSS, Javascript/jQuery
- Built to-do lists with Ruby, Ruby on Rails, and JavaScript
- Made attractive websites from start to finish using HTML, CSS, and Bootstrap

Introduction to Computer Science Student, 2015
Udacity, Online School

- Learned the foundations of computer programming language Python
- Built pieces of a search engine, which include a crawler, an index, and a page rank algorithm
- Built a social network, where I was given a set of relationships and organized these relationships into a network structure

Account Manager, 2012-2015
Booking.com, Los Angeles & San Diego

- Oversaw 130 accounts in San Diego, and have successfully overseen as many as 400 accounts at a time
- Managing relationships, inventory, and rates with hotels to maximize bookings and revenue
- Training properties on Booking.com's back end system
- Presented at city and tourism marketing meetings to promote Booking.com
- Acquired approximately 40 new accommodation partnerships in 2013
